

RUPAM MONDAL

2D ANIMATOR

About Me

I am a 23-year-old 2D Animator with 3 years of experience. I began my career in 2022 as a 2D Animator, where I built a strong foundation in animation production. In 2023, I transitioned into freelancing, working with global clients and delivering projects at an international level. Along the way, I also mentored a junior animator, which gave me experience in teaching and guiding others. Currently, I am focused on strengthening my skills in storytelling, character design, and rigging, while preparing to take on larger collaborative projects in the future.
